# Introduction

Luca Gammaitoni

ICT-Energy Summer school 2015, Fiuggi (IT)

**Can we design computers that are operated  
without spending any energy?**

# Our mountain

- 1) What is energy and how does it transform ?
- 2) What is energy at small scale ?
- 3) What is the relation between energy, entropy and information ?
- 4) How does a computer work ?
